The Japan BioIron Society

Iron Overload in the Asian Pacific Region (Satellite Symposium of BioIron 2007)

Co-Chairs Prof. S. Okada and Prof. L.W. Powell

Time and Date 12:00 – 16:00, April 1st (Sunday), 2007

Place Room D, Kyoto International Conference Center, Kyoto, Japan

Participation Fee 1000 yen. (Participant of BioIron 2007: free.)

Program

Welcome and Introduction

S. Okada

PART 1 Characteristics of Iron Overload in Asia-Pacific Region

Iron overload in Caucasians in the Asian Pacific region

L. W. Powell

Thalassemia and iron overload in Asia

T. Harano

Serum ferritin and transferrin saturation in Asians and Pacific islanders living in the U.S. and Canada:

The hemochromatosis and iron overload screening (HEIRS) study

C. E. McLaren

PART 2 Significance, Diagnosis and Treatment of Iron Overload

Labile iron pools as diagnostic and therapeutic factors in iron overload disease

I. Z. Cabantchik

Non-invasive assessments of iron overload

T. St. Pierre

The impact of the oral iron chelator EXJADE® in primary and secondary iron overload

G. Brittenham

PART 3 Discussion – Current Situation and Practical Management of Iron Overload in Asia-Pacific Countries

Thailand, Malaysia, Bangladesh, Myanmar, Indonesia

Discussion Opener

P. Pootrakul

Closing Remarks

L.W. Powell

Organizer's Office

Shigeru Okada
